

Discussion In-depth from Macro, Middle or Micro Level, Formulating Scientifically the 14th Five-Year Plan of Chinese Academic Libraries

—A Summary of the 3rd Conference of the Steering Committee for Academic Libraries of China from 2018 to 2022

Guan Zhiying Wang Bo

Abstract: The sudden global outbreak of COVID-19 makes 2020 to be the most challenging year! Facing the severe inner and outer challenges, Chinese academic libraries pay more attention to formulate strategic plan, in order to maintain stable development and draw the blueprint for the future. From December 14 to 16, 2020, the 3rd Conference of the Steering Committee for Academic Libraries of China from 2018 to 2022 was held in Peking University, the theme of the conference is the 14th Five-Year Plan of Chinese academic libraries.

The conference participants learned and understood the spirit of the 5th plenary session of the 19th Central Committee of the Communist Party of China (CPC) and the *CPC Central Committee's Proposals for Formulating the 14th Five-Year Plan for National Economic and Social Development and the Long-Range Objectives Through the Year 2035*. Moreover, the conference conveyed the new policy and strategy on higher education of the Ministry of Education in China. On the basis of in-depth understanding of the above important national strategic policies, the goal of development of Chinese academic libraries has been clarified. That is, how to link up with the national strategic plan, how to integrate into the overall situation of higher education, and how to formulate scientifically the 14th Five-Year Plan of academic libraries. This paper summarizes the contents and highlights of this conference, and discusses the paths and methods of scientifically formulating the 14th Five-Year Plan of Chinese academic libraries from the macro, middle or micro level, so as to provide useful guidance for the long-term development of Chinese academic libraries in the near future.
